**Web Teks, Inc. Celebrates 10 years
in Business with the Opening of New Eco-friendly Offices**

New headquarters in Battlefield Corporate Center will Allow for Continued Expansion

CHESAPEAKE, VA – Web Teks, Inc. a leading developer of sophisticated web applications, opened its new headquarters in Chesapeake, VA. The new building, developed and managed by Liberty Property Trust, is the first and only speculative office building in Hampton Roads to be LEED® Gold certified and features state-of-the-art HVAC, recycling water systems and energy efficient lighting solutions.

“As part of our ongoing expansion, Web Teks is pleased to open our new eco-friendly office in Chesapeake. Many of our business initiatives are focused on 'going green' and we wanted our new offices to reflect that commitment,” said Dyanne Walker, CEO. “Celebrating 10 successful years in business and moving into this beautiful new facility has created a buzz of excitement that can be felt throughout the entire firm.”

“The decision by Web Teks to establish its headquarters in Chesapeake continues to reinforce our reputation as a perfect location for technology and environmentally-friendly companies to do business,” said Chesapeake Mayor Alan Krasnoff. “Even in an uncertain economy, this proves that the entrepreneurial spirit is alive and doing well in Chesapeake, and we’re excited Web Teks has chosen to invest in our community.”

The current economic conditions have created a renewed focus on the optimization of business processes. Web Teks has become the "go to" firm for web-based business tools because of their experience, skilled eBusiness consulting team and talented development group. The new facilities will allow Web Teks to add up to 15 additional developers and consultants in 2009.

Web Teks' new office is located in Battlefield Corporate Center, at 676 Independence Parkway, Suite 120, Chesapeake, VA 23320 and can be reached by phone at 757-578-4923.

About Web Teks

Web Teks is a leader in the development of custom web applications for many of America's best companies. Since 1999, Web Teks has put technology to work for more than 500 businesses in the form of web-based eBusiness applications. For more information about Web Teks visit www.webteks.com.
